

PENCIL THRU DOLLAR

Items needed

Pencil

2 one dollar bills

Scissors

Rubber cement

Baby or talcum powder

Preparation

Cut center face out of one of the bills and glue it to the center of the other on the sides and bottom only making a secret pocket or channel for the pencil to go thru.

Use the powder around the glue and smooth it out and let dry

Performance

Ask for the loan of a dollar bill from your secret helper

Fold bill in half length wise

Make 2 stabs in between the folds, but don't penetrate the bill just yet

Say you are trying to find the right spot

On the 3rd stab push pencil into pocket or channel of fake center and out the face of George.

Show all around by quickly spinning the impaled bill around with the pencil

Pull bill out and rub the center of the bill to fix the hole

Show that its fully restored

Hand back to your secret helper and thank him for the loan of the bill

You can then take the fake center and tape it back to its original bill. If you don't want to deface them you can buy fake bills thru a magic dealer.
